

Digitalcounts Expresso® Audience Metrics

Audience measurement is essential for an emerging medium like Digital Out-of-Home advertising and place-based media. Digitalcounts Expresso is a **pre-packaged** audience measurement service **tailored** to digital out-of-home networks. Designed to make audience metrics **consistent**, **robust** and **easy to buy**, the Digitalcounts Expresso service allows digital OOH networks to achieve DPAA-compliant audience counts **in as little as 60 days**.

The service includes metrics in five areas:

- Audience counts in the vicinity of the screen(s)
- **Relationship** of audience count to venue data (e.g., sales transactions, card swipes, venue traffic, building area, building occupancy)
- Screen notice as a percentage of people in the vicinity of the screen
- **Dwell time** in the vicinity of the screen
- Audience insight such as demographics, media acceptance, frequency

Use Digitalcounts Expresso audience metrics to:

- Support your sales force with credible sales tools
- Differentiate yourself from other media
- Quote DPAA-compliant audience metrics
- Be **accountable** to media buyers and planners or retail executives.

About peoplecount

Peoplecount is a highly respected and innovative third-party supplier of audience measurement and advertising effectiveness research for both digital and static outdoor advertising, placebased media and in-retail networks. We are proud to have **won the 2009 MediaPost DOOH Award** for Most Innovative Audience Research/Metrics System. Established in **1995**, Peoplecount is an experienced supplier of out-of-home audience data.

Peoplecount is staffed with engineers, geographic information specialists, data analysts and a network of field surveyors. Clients include out-of-home advertising associations, advertising agencies, operators of digital out-of-home advertising networks and retailers.

Peoplecount balances traditional values of **integrity** and client support with a constantly evolving, **creative** perspective.
